10. (Currently Amended) ~~The grille shelter of claim 1, A grille shelter comprising:~~
a housing adapted to enclose a cooking grill comprising a rear wall, a first side wall and a second side wall said first and second side walls each having a rear edge connected to an end of said rear wall and a forward edge, said rear wall and first and second side walls each having a bottom edge adapted to support said housing on a base surface;
a roof member pivotally connected to a top edge of said housing;
at least one panel pivotally connected to at least one of said side walls;
and
wherein said at least one pivoting panel is moveable between a first position wherein it is open and a second position wherein it is closed; and

wherein said pivoting panel comprises a first section and a second section

substantially perpendicular to said first section.

11. (Original) The grille shelter of claim 10, wherein said first section and said second section are pivotally connected.

18. (Currently amended) ~~The grille shelter of claim 12, A grille shelter comprising:~~

a rear wall;

a first and second side walls affixed to opposing ends of said rear wall at right angles thereto said rear wall and first and second side walls adapted to support said shelter upright on a base surface;

a roof member pivotally connected to a top edge of said rear wall;

first and second pivoting panels connected, respectively, to a forward edge of each of said side walls;

wherein each of said pivoting panels is moveable between an open first position and a closed position and said roof member is moveable between an open position and a closed position;

wherein a user may use a grille located in said shelter to cook when said roof member and said front wall are in said open first positions;

wherein said grill is sheltered from the elements when said roof and panels are in the closed position; and

wherein said first and second pivoting panels each comprise a first section and a second section substantially perpendicular to said first section.

19. (Currently amended) The grille shelter of claim 18, wherein said first sections and said second sections are pivotally connected.
